Name \_\_\_\_\_  
Last First Middle

Graduation Candidate?  Yes (degree audit must be submitted)  No

A minor is an optional (elective) and secondary structured plan of study outside the major offering some specialization in another discipline. Minors consist of approximately 18 semester hours (some minors require fewer or more hours). A minor appears on the official transcript. Minors can be in similar or very different disciplines than the major. Pursuing minors may require additional coursework beyond that required for a degree/major program. Students are encouraged to pursue minors when their interests and time warrant it. Students should consult with their academic advisor to determine if a minor is right for them, and whether additional time or heavier course loads would be required to complete a minor or minors. The following restrictions apply to completing minors: (1) A student may not major and minor in the same academic discipline; (2) Some semester hours earned toward a minor may also be applied to *General Education Core* requirements, major requirements, or other minor's requirements. However, *at least 9 semester hours of each minor must be discrete* (not also used to fulfill any requirement of any a major, other minor, or the General Education Core). Where they do not fulfill General Education Core or major requirements, hours earned in service of a minor are applied toward the minimum number of required elective hours in the degree program.

- I am no longer pursuing a minor
  - I am adding a minor (check all that apply below)
  - I am changing my minor (current minor) \_\_\_\_\_ (check new minor(s) below)
